

# Justice for Jazz Artists!

## Meaningful Benefits for Jazz Musicians Now!

Jazz is the only authentic American art form.

However, when jazz artists grow old, most will have no pension and little social security.

For 15 years, the Justice for Jazz Artists! campaign has been working to bring dignity to jazz musicians.

### We need your help:

- In 2007, Justice for Jazz Artists! helped pass a law forgiving a NY State sales tax on admission to clubs like the Blue Note so that this money could go to benefit funds on behalf of the musicians.
- The Blue Note, and other major jazz clubs here, supported the 2007 law but have yet to make benefits contributions.
- Help us encourage clubs like the Blue Note to sit down with Justice for Jazz Artists! now to make this plan a reality.
